Weekly spellings

NUMERACY

Learning to recall all times tables to 12x12 quickly

Secure and revise all written calculation methods

Revise fractions of quantities

Measuring in metres, centimetres, grams, kilograms, litres and millilitres by reading from a scale.

Review telling the time and solving time problems

Translations of 2 d shapes

Line of symmetry

ICT

Learn about cyber-bullying and understand our own responsibility when communicating on line.

Begin to use e mail within the class as a form of communication

Complete topic research and science investigations using ICT

Use appropriate software to make presentations for our leavers assembly.

OURSELVES & OTHER ANIMALS

The children will investigate skeletons in humans and animals. They will find out about bones, joints and muscles, explore the structure of the tooth and find out about decay. They will label a diagram of the human digestive system, explaining the basic function from food entering the mouth. We will also find out that animals need the right amount of nutrition from what they eat.

R.E.

The five pillars of Islam - Complete unit begun last half term

Learning about the key beliefs of Islam and how these effect how Muslims lead their lives.

PSHE

Learning to cope with changes in our life and understand how I or other people might find change difficult and react in different ways. Dealing with worries.
